215 Timer

Technical Data Sheet Applicable To:

| | |
|---------|------------------|
| 215-P01 | Detectable Timer |
|---------|------------------|

Industry Usage:

A fully detectable timer, complete with magnet and fold out stand.

Features and Benefits:

- Metal detectable & X-ray visible
- Performs well in most food related atmospheric conditions
- Fold out stand with magnet for attaching to machines
- Colour: Blue
- Sizes: 68mm x 79mm (2.68 x 3.11")

Material and Compliance information:

This is to confirm that the following products, equipment or materials are suitable for Food Contact as supplied from Detectamet Ltd meeting the requirements of the Acts, regulations and orders applicable in America, Europe and the United Kingdom related to goods supplied including, but not necessarily limited to the following:

The base materials Polypropylene with x-ray detectable and/or metal detectable additive used for the manufacturing of Detectamet Products in conjunction with the above materials may be safely used to product articles intended for use in processing, handling and packaging food in accordance with the above stated regulations and CFRI 7.1500 (Nylon Resins).

The ingredients used to manufacture the products listed below are all recommended for use in direct food contact applications to the listed relevant directives:

- AP(89)1 regarding purity compliance
- European directive 2007/19/EC amending 2002/72/EC & ENI 935:2004 Regulation 10/2011
- Regulation (EC) No 1907/2006 Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)
- The product is produced in accordance with EU commission regulation 2023/2006 – Good manufacturing practice for materials & articles intended to contact with food, and all subsequent amendments (and their transposition into national law)
- American FDA CFR 21 177.1520 (olefin polymers)
- American FDA Regulation 176.170
- European Food 2202/72 EC and EN 1935:2004 – Materials and Articles intended to come into contact with food and all subsequent amendments (and their transposition into National Law). Regulation 10/2011
- The handle can be marked with the “glass & fork” symbol on the packaging or by labelling.
- Overall migration test is made on the same or similar product. The product meets the requirements regarding overall migration to 50% ethanol, 3% acetic and olive oil.
- Food contact No Limitation

No warranty is given or implied with respect to this information or patent infringement. Detectamet Ltd do not accept liability for loss or damage arising from the use of this information. Results are based on a test sample, our general experience and information from suppliers. Data and results may be confirmed by the buyer by testing for its intended conditions of use.
